Outcomes

- ❖ I attended several sessions which provided me with ideas of activities to implement within my course.
- ❖ I received several free books to use with my students when teaching about current literature in elementary/middle level.
- ❖ I attended research and poster sessions to see current research in the area of language arts.
- ❖ This conference allowed me to see current research in this area and get ideas on what I can look further into within my own educational research. It has also given me ideas on what to incorporate in my English methods course next semester.
