As the coronavirus (COVID-19) situation continues to unfold, Global learning is working to address the potential increased need for proctored services on our campus. These services are provided through ProctorU, a third-party vendor. Faculty are encouraged to contact global learning by email (global@mst.edu) or phone (341-6591) for help setting up proctored tests.

As we prepare for the potential of moving all campus courses online, it is critical that we explore options that allow for flexibility without reducing outcomes. We encourage faculty to review various testing options that will yield the same learning results. This includes non-monitored testing (i.e. open books, notes, take-home exams or Canvas quizzes) verses monitored proctored testing.

The Testing Center https://testcenter.mst.edu/ can provide instructions for setting up times to meet individual student accommodations.
